AMW55EU | Targus Wireless Compact Laser Mouse

The Targus Wireless Compact Laser Mouse is the perfect solution for mobile users who need to save space when using an external mouse. The sleek design provides added style, whilst the integrated scroll button allows you to scroll up or down through spreadsheets or browse the internet. The high definition laser sensor provides enhanced precision and accuracy in your clutter free environment.

The mouse also features a low power indication light and micro USB receiver which is small enough to leave permanently plugged into your computer alternatively using the built-in Stow-N-GoTM technology the USB receiver can be easily stored away inside the mouse itself, for safe travelling.

Compact, wireless mouse with 2.4Ghz micro USB receiver that is small enough to leave plugged into your computer or simply store it inside the mouse when travelling

High performance 1000 dpi laser sensor improves tracking accuracy and precision

Low power indication light shows you when it's time for new batteries

Laser sensor provides up to 6 months battery life (Battery life based on average usage per day and computing conditions)

Compact size for use in small work areas - Lightweight, portable design is ideal for travelling

Compatible with PC, Mac and Netbook
